## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 17-21, 26, 29-53 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art does not teach in combination with the other limitation of the independent claim a method for controlling an internal combustion engine wherein the calculating step is performed using an algorithm that receives input to determine whether the loads among the cylinders are balanced, and if not, compensates the engine control value for unevenly distributed cylinder loads.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
